

HSBC Life Sapphire Prestige Income II Product Video Transcript

Introducing HSBC Life Sapphire Prestige Income II.

A whole of life plan that provides you with regular income for up to age 120*, helping you build positive momentum that lasts generations. So your loved ones can have peace of mind at every stage of life.

Here's how it works. Choose from any of our flexible premium terms including the option to accumulate your regular income for potential higher returns. And from the 2nd year on, you're qualified to receive regular income every month.

With just a simple application process with no medical examination required, you'll gain immediate access to the policy cash value*, coverage for death and terminal illness, and a policy maturity benefit.

The policy also covers you in cases of unforeseen circumstances, with an unemployment support benefit for regular premium policyholders, and accidental death coverage for all policyholders.

That's not all. The 3 times change of life insured lets you pass on the policy seamlessly from generation to generation. And when the policy matures, the policyowner will receive the lump sum payout. So you can rest assured, knowing you have built a stable source of sustainable wealth for your family.

It's more than just a policy, it's about helping you build positive momentum that lasts generations.
