

## How to send money internationally with HSBC Global Money Transfers

Sending money overseas is now even easier. Simply follow these steps within your HSBC Singapore App.

First of all, open your HSBC Singapore App. Then go to the 'Move Money' button at the bottom of your screen.

From here, click on the 'Send Money Internationally' arrow.

Once you're in, scroll down and select the country or territory you want to send money to. You'll now need to select your transfer method.

Depending on the country or territory you select, you may be given one or more transfer options.

Here, you'll also find estimates for arrival times and transfer fees. But we'll give you a better idea of these later on.

Once you've chosen your preferred transfer method, click 'Continue'.

Next up, select your Everyday Global Account and choose your currency. You'll also need to choose the currency you'd like your payee to receive.

Type in the amount of money you want to send, in your currency, and we'll automatically tell you how much your payee will receive in their local currency.

You can also do this the other way round so you can say exactly how much you'd like your payee to receive. When you're done, click 'Continue'.

Now, it's onto your payee information. You'll need to add a new payee or choose an existing one. You can select an existing payee from the drop down. Or click on the plus sign to add a new payee.

We'll ask you for several bits of information here. This will vary depending on the country or territory you're sending money to.

Remember to enter your payee's name exactly as it's written on their account. You can also add your payee's address. This is optional, but it can help speed things up.

When you're ready, click 'Continue'.

Your next step is to review your payee's information. Enter a payee name in the 'Save payee as' box, so they're saved for next time.

Once you're happy everything is right, click 'Add payee' and authorise your transfer.

Now your payee is added, re-confirm the amount you'd like to send. Select the purpose of your payment and click 'Continue'.

Finally, review your payment request and make sure you're happy with all the information you've given. You can also see the fees in this section.

Remember, we'll waive any HSBC Singapore fees, but beneficiary or intermediary bank fees may still apply.

Click to confirm your transfer – and you're all done!
