\*\* Please note that for these billing organisations, you are required to use the invoice number as bill account number. You should input the invoice number with each new bill payment. Please do not place recurring bill payments to these billing organisations.

**For merchants that do not allow me to input the "Bill Reference Number" at the ADD PAYEE screens, what should I do?**

For the merchants e.g. IRAS-Other Taxes, the bill reference numbers will only be on a one-time basis, and thus will be different every issuance. We prevent setting up these bills as templates so that for subsequent payments, you will not retrieve the old templates and pay to a wrong billing account.

If you wish to pay these bills, simply proceed to ADD PAYEE (if you have not done so) and setup the payee with the billing organisation name only. Next, proceed to "Pay Bills" or "Make Multiple Bills".
